TELENAV · CES 2027

Swag & Apparel Plan

January 6–9, 2027 · Las Vegas, NV

Working discussion · Preliminary options and planning assumptions

Planning Overview

01 PURPOSE	02 BUDGET STATUS	03 DISCUSSION FOCUS
Review swag and apparel options for CES 2027.	Preliminary pricing is available for selected items; shipping costs and several supplier quotes remain pending.	Exchange feedback on preferred items, target quantities, budget range, and delivery approach.

Recommended swag shortlist Concepts 01–03: three product concepts with preliminary prices and 30-unit MOQs.	Original concept pool Concept Ideas 01–08: early-stage options with supplier pricing and feasibility still to be confirmed.	Apparel planning basis 12 people × 2 pieces each = 24 apparel pieces. Shipping remains TBD.

This document is intended to support discussion, not a final approval or purchase commitment. All prices, lead times, shipping costs, and supplier details should be reconfirmed before ordering.

01 2026 Beijing Auto Show Swag Reference

Reference inventory from the 2026 Beijing Auto Show, with product details, unit pricing, quantities, and estimated line totals.

No.	Product / description	Unit price (USD)	Qty	Line total (USD)	Comments
01	Swag Set Wireless charger + 10,000mAh power bank + 45W adapter + bag + swag box	$54.73	50	$2,736.50	Bundle set; highest-cost option.
02	Car Wireless Charger Wireless charger + bag + swag box	$27.83	30	$834.90	Car-focused branded swag.
03	Power Bank Power bank + bag + swag box	$13.31	30	$399.30	Compact, practical tech swag.
04	Custom Notebook A5 PU notebook + kraft box	$7.78	50	$389.00	Branded stationery.
05	Thermal Bottle Bottle + package	$12.43	50	$621.50	Bottle with packaging.
06	Thermal Bottle* Source description: fast-charge power bank + custom box	$15.72	50	$786.00	Source naming mismatch: product name says “Thermal Bottle,” but description says fast-charge power bank.
07	Eco Cork Tote Bag Eco cork tote bag	$6.74	50	$337.00	Eco-material lifestyle item.
08	Badge Badge + swag box	$4.04	50	$202.00	Small branded giveaway.
TOTAL · 8 product lines			**360**	**$6,306.20**	Before shipping, tax, and any other fees.

ESTIMATED TOTAL · 8 PRODUCT LINES

$6,306.20 360 units · Before shipping, tax, and any other fees.

Prices are approximate reference values from the supplied 2026 Beijing Auto Show swag list.

02 CES 2027 Swag Concepts · Recommended Options

Three shortlisted concepts with product imagery and preliminary pricing for the next round of supplier quotes or sampling.

Concept 01 · Multifunction Wireless Charging Lamp

A bedside or desktop accessory combining magnetic phone charging, wireless earbud charging, adjustable lighting, and a warm night-light function.

SHIPPING DECLARATION · No batteries included; magnetic components present.

Unit price: $21.87 MOQ: 30 units

Custom product swag box; free shipping to non-remote areas; 1% ordinary VAT invoice. Est. weight: 1 kg/unit. Packaging: 203 × 166 × 90 mm.
Sampling: 1 week · Production: 1 week · Converted from RMB 145.80 at approx. 0.149962 USD/CNY.

Concept 02 · Multi-Device Charging Set

A foldable multi-device wireless charging stand for a phone, smartwatch, and earbuds, paired with a transparent Bluetooth mouse.

SHIPPING DECLARATION · No batteries included; magnetic components present.

Unit price: $29.47 MOQ: 30 units

Custom product swag box; free shipping to non-remote areas; 1% ordinary VAT invoice. Est. weight: 0.5 kg/unit. Packaging: 118 × 118 × 30 mm.
Sampling: 1 week · Production: 1 week · Converted from RMB 196.50 at approx. 0.149962 USD/CNY.

Concept 03 · Foldable Multi-Device Wireless Charger

A compact, foldable wireless charging station with multiple charging pads for personal devices, designed for a clean desktop setup or convenient travel.

SHIPPING DECLARATION · No batteries included; magnetic components present.

Unit price: $25.34 MOQ: 30 units

Custom product gift box; free shipping to non-remote areas; 1% ordinary VAT invoice. Est. weight: 0.5 kg/unit. Packaging: 160 × 100 × 55 mm.
Sampling: 1 week · Production: 1 week · Converted from RMB 169 at approx. 0.149962 USD/CNY.

Important: product shipping must be quoted separately from apparel. These products contain no batteries but do contain magnetic components; confirm carrier acceptance and any required inspection or declarations before dispatch.

02 CES 2027 Swag Concepts · Concept Ideas (01–08)

Early-stage concepts for reference. Pricing, quantities, and supplier feasibility remain to be confirmed where not listed.

CONCEPT 01

Travel Tech

A travel-ready tech bundle featuring a foldable 3-in-1 charger, compact GaN fast charger, and slim tech folio, finished with understated Telenav branding.

Unit price: TBD Qty: TBD

CONCEPT 02

In-Car Utility

MagSafe-compatible phone mount paired with a high-quality thermal tumbler for everyday driving and long trips.

Unit price: TBD Qty: TBD

CONCEPT 03

VIP Incentives

Premium quarter-zip pullover paired with a portable mini air compressor and power bank combo.

Unit price: TBD Qty: TBD

CONCEPT 04

Digital Hybrid

Smart business card or NFC tag to share digital contact information and Telenav demo assets with a single tap.

Unit price: TBD Qty: TBD

CONCEPT 05

Executive Travel Luxury

Rolled cashmere-blend travel blanket with a leather strap, paired with a luxury sleep mask and calming linen mist.

Unit price: TBD Qty: TBD

CONCEPT 06

Sophisticated Desktop Art

Anodized-aluminum valet tray with integrated wireless charging, paired with a minimalist rechargeable LED desk lamp.

Unit price: TBD Qty: TBD

CONCEPT 07

“Invitation-Only” VIP Swag

Self-cleaning insulated water bottle with a laser-etched Telenav logo, alongside a custom-boxed bottle of artisanal spirits.

Unit price: TBD Qty: TBD

CONCEPT 08

Bespoke Exec Experience

Heavy titanium executive business cards with a discreet RFID-blocking card wallet.

Unit price: TBD Qty: TBD

Concept 07 note: The alcohol component may be subject to company policy and destination-market restrictions. Confirm policy and shipping requirements before considering this option.

03 CES 2027 Apparel Options

Four apparel options for review. Prices are preliminary reference conversions; confirm supplier quotes, materials, sizing, logo placement, and final quantities.

Long-Sleeve Polo Shirt

Navy long-sleeve polo with a classic collar and a clean, professional silhouette. Replace sample branding with the Telenav logo for production.

Unit price: $14.71 Minimum order: 5 pieces

Reference price converted from RMB 98 at approx. 0.1501 USD/CNY. Confirm fabric, size range, logo artwork, and final supplier quote.

Cardigan / Zip-Up Jacket (Black)

Black full-zip jacket reference with a stand collar, stretch fabric, and understated styling.

Unit price: $29.69 Minimum order: 5 pieces

Confirm final garment type, fabric, color, Telenav logo placement, size range, and supplier quote.

White Zip-Up Jacket

White full-zip jacket with a stand collar and textured fabric. Replace sample branding and raised gold logo treatment with approved Telenav artwork.

Unit price: $23.72 Minimum order: 5 pieces

Reference price converted from RMB 158 at approx. 0.1501 USD/CNY. Confirm fabric, size range, logo artwork, and final supplier quote.

Hoodie

Relaxed-fit pullover hoodie with a roomy hood, ribbed cuffs, and hem. Multiple colors are available; confirm final color and use approved Telenav branding.

Unit price: $14.71 Minimum order: 5 pieces

Reference price converted from RMB 98 at approx. 0.1501 USD/CNY. Confirm color, fabric weight, size range, logo artwork, and final supplier quote.

04 Shipping Options & Requirements · Charging Products

Shanghai → Las Vegas, USA · Quote charging products separately from apparel. The lamp and chargers contain no batteries but do contain magnetic components.

DHL International Shipping: Key Prerequisites

Based on information confirmed with DHL customer service; reconfirm requirements, fees, and timelines before dispatch.

Requirement	Details
01 · Monthly billing account required	DHL customer service advised that international shipments containing magnetic products must use a DHL monthly billing account for freight payment; standard pay-as-you-go payment is not suitable for this arrangement.
02 · Magnetic inspection report	A magnetic inspection report is required before dispatch. Estimated fee: RMB 100, payable by the sender. Estimated turnaround: 4–5 days.
03 · Product and consignee details	Prepare product name, quantity, accurate declared value, country of origin, packed total weight and dimensions, sender postal code, and the U.S. consignee's full address, ZIP Code, phone number, and email.
04 · Monthly account application and review	Not every company qualifies. DHL may require business-license details, including registered company name and address. Estimated review: 2–3 days, subject to DHL approval.

Supplier-Provided U.S. Freight Options

Indicative rates and lead times provided for preliminary planning; final quote and route suitability remain to be confirmed.

Shipping method	Reference rate	Estimated transit	Recommended buffer
U.S. air freight · tax-inclusive bulk cargo (supplier describes as powered goods)	¥96.5/kg	10–15 days	Allow 1 month
U.S. sea freight · Matson expedited vessel	¥28.8/kg	25–30 days	Allow 2 months

Important route-acceptance check
The supplier describes the air-freight line as "powered goods / cargo with batteries," while the current products are declared as containing no batteries but magnetic components. Confirm in writing that the route accepts the actual products. Clarify whether "tax-inclusive" covers all customs duties, taxes, and U.S. final delivery; also confirm chargeable-weight and dimensional-weight rules.

04 Charging Products · Shipping Methods & Recommendation

Budgetary planning only. Carrier acceptance, magnetic-component requirements, customs responsibilities, and actual delivery dates must be confirmed before booking.

Shipping method	Estimated transit time	Budgetary estimate	Shipping requirements
DHL Express	Approx. 2–5 business days	Quote based on product specifications	Confirm acceptance of the product and its magnetic components.
FedEx International	Approx. 2–5 business days	Quote based on product specifications	Confirm acceptance of magnetic components and any required declarations in advance.
UPS International	Approx. 2–5 business days	Quote based on product specifications	Confirm product specifications, packaging, and magnet-related requirements in advance.
Dedicated electronics air freight	Approx. 5–12 days	Quoted by weight, volume, and product specifications	Confirm the route accepts this product model and its magnetic components.
Dedicated sea freight	Typically approx. 4–8 weeks	Separate quote for bulk shipments	Best for larger shipments with flexible timelines.

Shipping Decision Guide

Choose the route based on urgency, shipment size, and carrier acceptance for magnetic components.

01 · APPAREL

Fastest, deadline-driven delivery

Use DHL Express or FedEx for samples, event apparel, or shipments with a firm arrival date. Request a formal quote using packed weight, dimensions, destination ZIP code, and required delivery date.

02 · BULK APPAREL

Balance cost and delivery time

For larger quantities arranged in advance, compare SF International, EMS, and dedicated U.S. air freight. Confirm customs, taxes, and final-mile delivery are included.

03 · CHARGING PRODUCTS

Ship separately after carrier review

Confirm acceptance of the magnetic components and obtain a separate quote based on the actual product and packaging. Do not reuse apparel shipping rates.

Rates and transit times are planning estimates only. Public references are not formal live carrier quotes. Confirm carrier acceptance, package dimensions, customs/tax coverage, and final-mile delivery before booking.

05 Apparel Budget & Timeline

Planning basis: 12 people × 2 pieces per person = 24 apparel pieces. Shipping budget is currently unknown (TBD).

Apparel budget estimate

Apparel Option	Unit Price (USD)	Minimum Order	Budget for 24 Pieces (USD)	Estimated Shipping Budget (USD)
Long-Sleeve Polo Shirt	$14.71	5 pieces	$353.04	TBD
Cardigan / Zip-Up Jacket (Black)	$29.69	5 pieces	$712.56	TBD
Hoodie	$14.71	5 pieces	$353.04	TBD
Total (sum of the three 24-piece scenarios)	**$1,418.64**	**TBD**		

Budget interpretation: the $1,418.64 total sums three separate 24-piece scenarios (72 pieces combined if all three styles are ordered at those quantities). For an actual 24-piece mixed-style order, multiply each style's unit price by its planned quantity and add the line totals. Shipping remains TBD.

Production & shipping timeline

Dates	Milestone	Planned Activities / Target
Nov 2–6	Confirm design	Discuss and confirm the design direction, garment options, colors, sizes, logo artwork, and specifications.
Nov 7–14	Sampling	Produce and review samples; confirm final adjustments before bulk production.
Nov 15–22	Production	Complete bulk production and prepare packed shipments.
Starting Nov 23	Ship in batches	Begin mailing completed items in batches as soon as they are ready. Fastest estimated arrival in the U.S. is before Nov 30; this is not guaranteed.
By Dec 6 at the latest	Final shipping deadline	All apparel shipments should be dispatched no later than Dec 6, approximately one month ahead of CES, to leave contingency time for unexpected delays.

Key date markers · November–December 2026

NOV 2–6	NOV 7–14	NOV 15–22	FROM NOV 23	BY DEC 6
Confirm design	Sampling	Production	Ship in batches	Final dispatch deadline

Schedule risk / buffer

Begin dispatching completed items in batches from Nov 23. The earliest parcels may arrive in the U.S. before Nov 30, but this is not guaranteed. All apparel should be dispatched no later than Dec 6, leaving contingency time for customs clearance, carrier delays, and other unexpected issues.

All supplier pricing, shipping costs, transit times, customs arrangements, and production lead times are preliminary planning inputs and must be reconfirmed before commitment.
